Joy,

Our trip has gone well. We have visited with a lot of people and left fliers and the past fact sheet on over 100 residences. We Have spoken with both of the ladies that are most instrumental in the neighborhood.

Joan is great, her enthusiasm is contagious! I hope I can continue to help her find her nitch in our team. I would like her to help with Delta and Wilcox, so she can see NPL sites from the beginning.

She is editing our new fact sheet, and I'm very excited to have the opportunity to help her in her new career.

Thanks,

Bill
